

Datto RMM Public Datasets

Here are the published or Alpha version Datto RMM datasets that you can use to create the widgets and dashboards

If you need some dataset that is not listed here, please check with <https://rmm.datto.com/help/en/Content/2SETUP/APIv2.htm>, find the API call, then submit a ticket to support@mspbots.ai , typically, we can get the dataset in about 2-3 business days.

PocketQuery experienced an error!

There were errors executing this statement. Please check whether the following parameters are given: [integrations]. If the parameters are correct, something must be wrong with the query or the datasource connection. For inspection, please use the debug mode in the macro or contact your administrator.
