## How to File a Personal Time Off in the Attendance App

File Time Off is the new Attendance App feature that helps track and record employees' time off schedules. Employees who are on personal time off (PTO) will not receive bot notifications and alerts at this time.

This feature helps in manpower scheduling and allocation. As a manager, you can view the details of the Request Time Off (RTO) applications of team members as well as yours. This view is based on the Member-Manager role setup in your AAD.

This article gives the steps for how to:

- Apply for a Personal Time Off
- Cancel a Time Off Request

## Apply for a Personal Time Off

- 1. Open the MSPbots App and navigate to Apps > Attendance.
- 2. Go to Settings and select File Time Off.

The system will not send bot alerts and notifications to the member during the time off. The sending of alerts and messages will resume after the PTO dates.

Note: All Request Time Off (RTO) entries are approved by default. The current version doesn't include online approval from the Manager. Employees must secure their manager's approval offline before filling out the form.

## Cancel a Time Off Request

3.

- 1. Open the Attendance app and click on Settings > File Time Off.
- 2. On the Request Time Off details section, select the time off entry that needs to be canceled then click Edit.
