

Client Portal Management

Not all of your company's reports can be shared with your clients. The Client Portal Management page is where you can publish reports that your clients can have access to. You can customize this portal to reflect your brand and grant access to clients who are allowed to view your data.

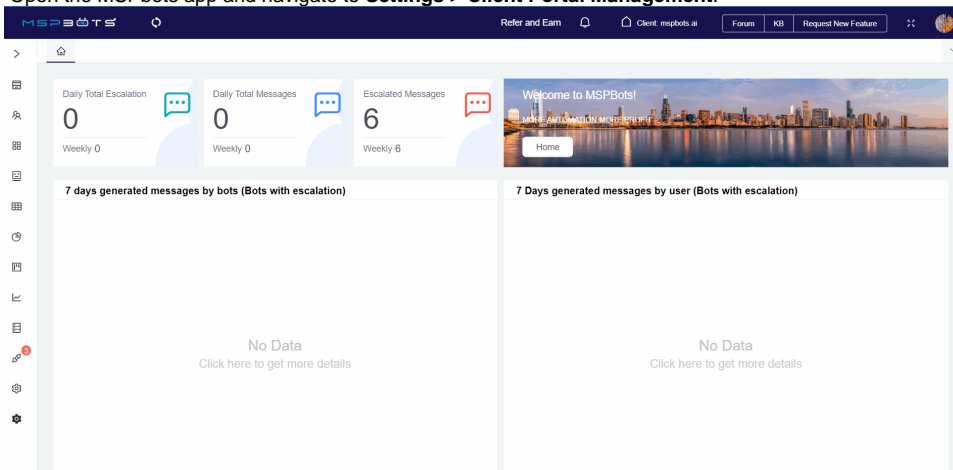

What's in this article:

For now, the app does not automatically send emails to clients. You can test the login from an incognito browser to ensure the reports are working properly.

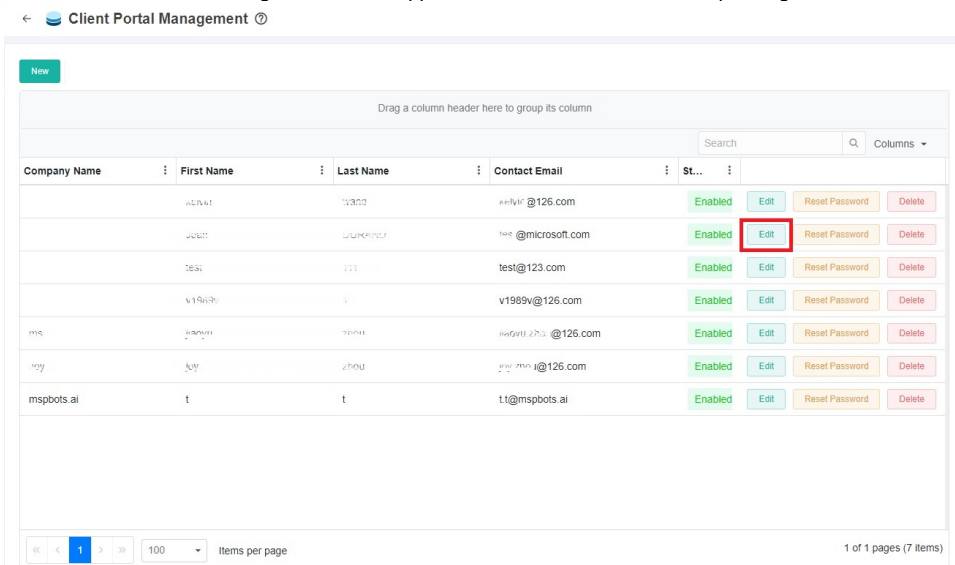

- Click **Confirm** to save the setting. You can now send the login portal address, email, and password to your client.

B. How to modify a client's information

- On the MSPbots page, hover over the **Settings** icon and select **Client Portal Management**.

- When the Client Portal Management screen appears, click the **Edit** button corresponding to the client whose information needs to be modified.

- When the Edit Client window appears, modify the information that needs to be changed or updated.
- Click **Confirm** to save your modification.

Watch the video guide

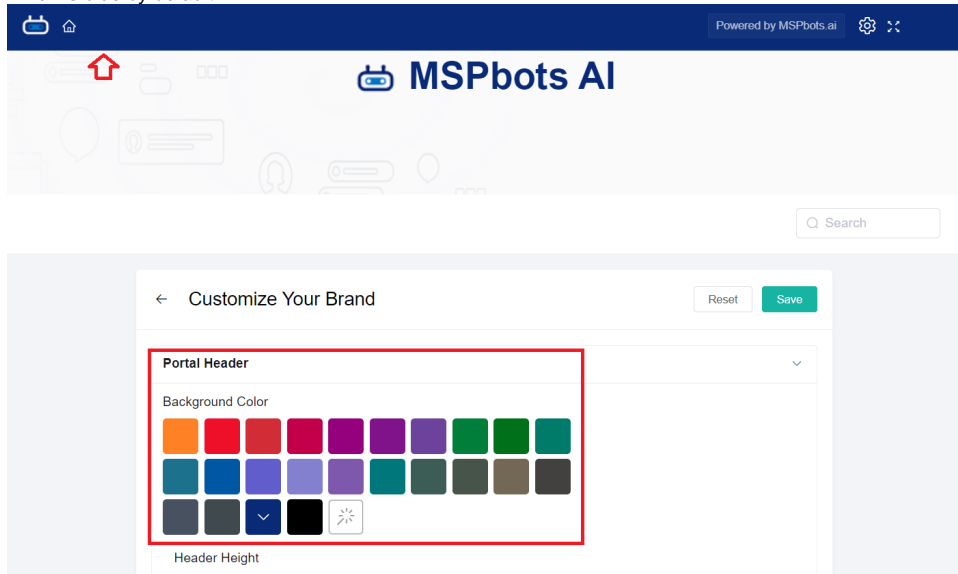

C. How to customize the Client Portal according to your brand

- On the Client Management Portal, click the **Settings** icon and select **Customize Your Brand**.

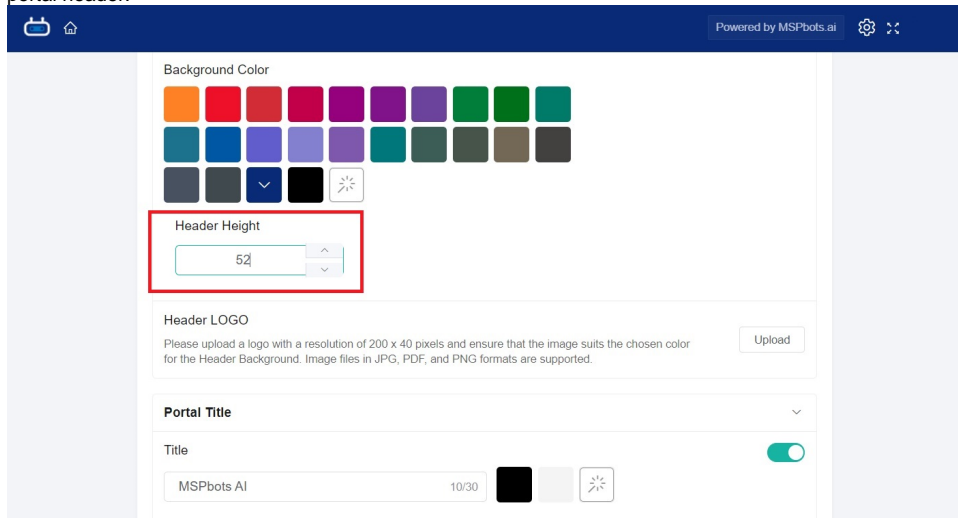

- Configure the **Portal Header** by setting the Background Color, Header Height, and Header Logo.
The header automatically applies your modifications so you can readily preview your customizations.

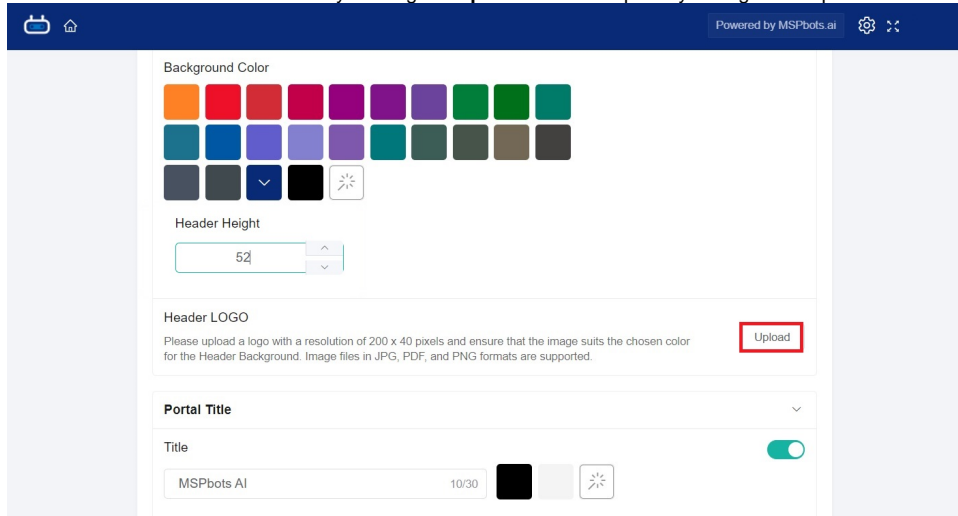

- a. First, set the **Background Color** by selecting a color for the **Portal Header**. This step will modify the color of the bar on top of the page which is blue by default.

- b. Next is to **modify** the **Header Height** according to your preference. Use the  or  buttons to adjust the thickness of the portal header.

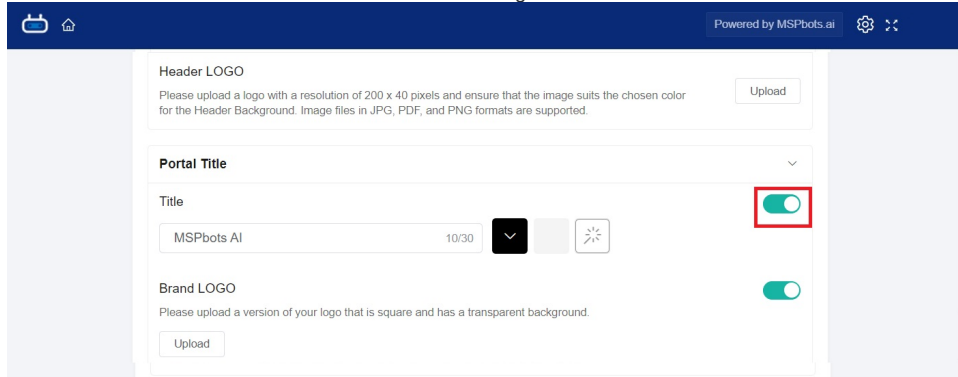

- c. Then customize the **Header LOGO** by clicking the **Upload** button to upload your logo to the portal header.

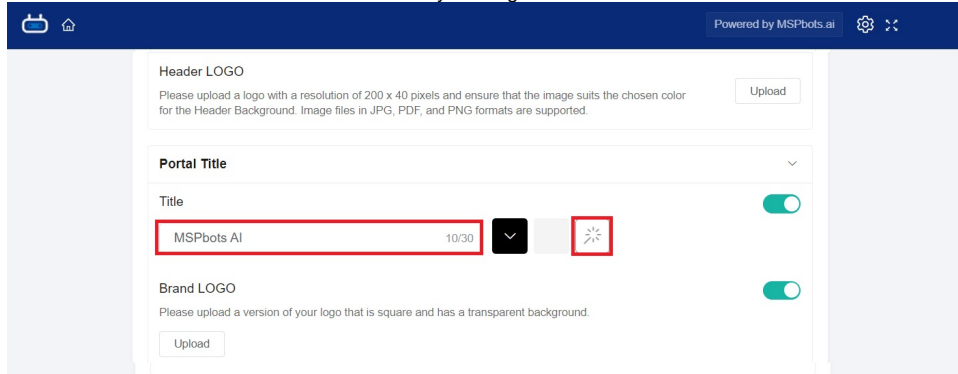

3. Next, scroll down on the page and configure the **Portal Title** by setting the Title, Brand Logo, Layout, and Brand Image.

- a. Start with the **Title**. Click the switch  to enable setting the Title.

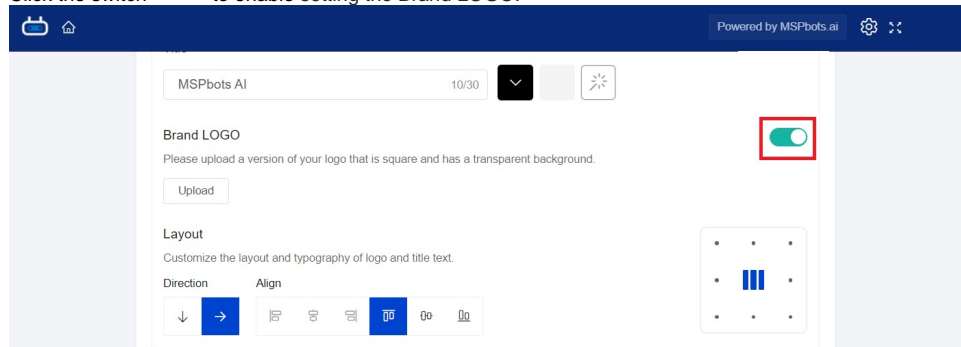

- b. Enter a name for the **Title** and set its font color by clicking the button with a wand.

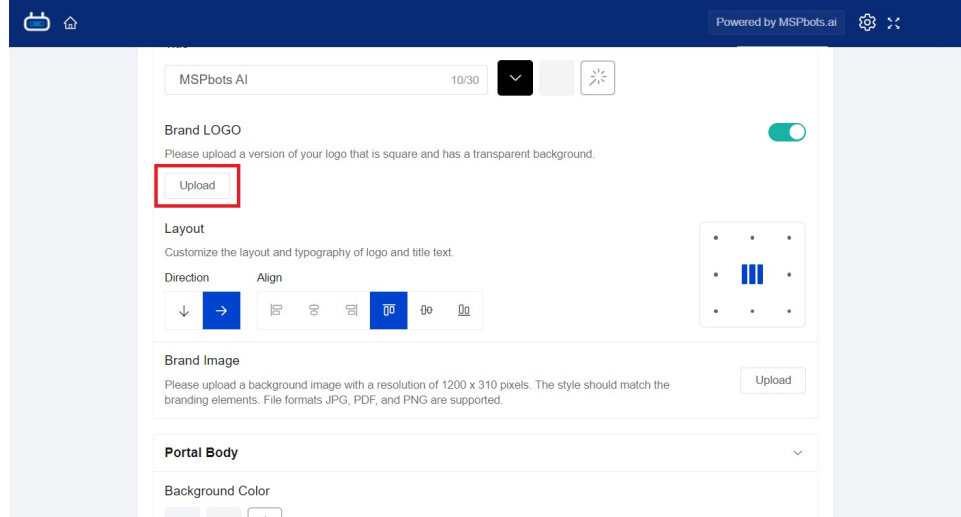

- c. Select a color and click **OK**.

- d. Next, upload your **Brand LOGO**.

- i. Click the switch  to enable setting the Brand LOGO.

- ii. Click the **Upload** button to upload your company logo. Use an image that is square and has a transparent background.

- e. Then customize the **Layout** of the Portal Title.
Do this by selecting the **Direction** and **Align** (Alignment) for your Portal Title.

The screenshot shows the 'Portal Title' configuration panel. The 'Title' field contains 'MSPbots Client Portal'. The 'Brand LOGO' section has an 'Upload' button. The 'Layout' section is highlighted with a red box, showing 'Direction' set to 'Right' (indicated by a blue arrow) and 'Align' set to 'Center' (indicated by a blue box). The 'Brand Image' section is also visible with an 'Upload' button.

You can also adjust the placement of the Portal Title by selecting a location represented by the dots.

The 'Layout' section is highlighted with a red box, showing 'Direction' set to 'Right' (indicated by a blue arrow) and 'Align' set to 'Center' (indicated by a blue box). The 'Brand Image' section is also visible with an 'Upload' button.

- f. The last modification for Portal Title is to set the **Portal Brand Image**.
To customize the Portal Brand Image, click the **Upload** button and upload a background image with a resolution of 1200 x 310 pixels. File formats JPG, PDF, and PNG are supported.

The screenshot shows the 'Portal Title' configuration panel. The 'Title' field contains 'MSPbots Client Portal'. The 'Brand LOGO' section has an 'Upload' button. The 'Brand Image' section is also visible with an 'Upload' button.

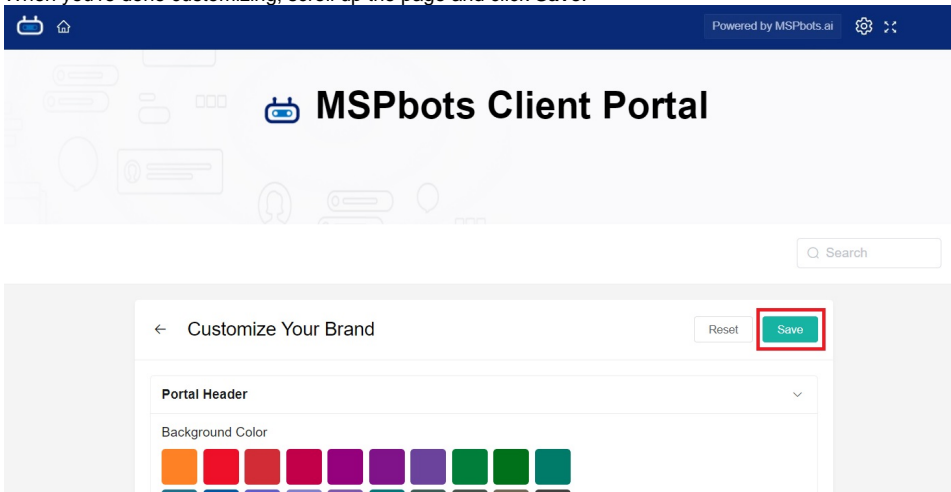

4. Next, configure the **Portal Body** by selecting a **Background Color**.

- a. Click the button with a wand to show the available colors.

- b. Choose a color and click **OK**.

5. When you're done customizing, scroll up the page and click **Save**.

Click **Reset** if you want to change or undo your modifications.

D. Sending login information to your client

Use the template below to get in touch with your client.

Dear [client's first name],

Here is the information you need when logging in to your client dashboard:

- Login portal address: <https://app.mspbots.ai/loginAsAccount>
- Your email and password

E. Known Issues and Future Improvement

You cannot add a client who has an account with MSPbots already. For this requirement, please send an email to support@mspbots.ai so we can add it manually.
