# Jira Server Integration Setup

Perform the following steps to connect Jira Server to MSPbots:

1. Secure the following information for your Jira Server account:
   - Jira URL
   - User Name
   - Password
2. Log in to the MSbots app and navigate to **Integrations** on the menu.
3. On the Integrations tab, search for **Jira Server** and click it.
4. Enter the information from Step 1 into the corresponding fields.

5. Create a separate MSPbots account with read-only permission in Jira. (Optional)
6. Click **Save And Sync**.
