

HubSpot Integration Setup

Setting up a HubSpot integration with MSPbots is done by authorizing HubSpot in MSPbots and configuring the data source.

*This procedure requires HubSpot login. Log in to HubSpot before you start. When prompted to authorize MSPbots to pull data, click **Yes**.*

To set up and connect HubSpot:

1. Log in to the MSPbots dashboard as an administrator.
2. Go to [Integrations](#) and search for HubSpot.
3. Open **HubSpot** and click the **Sync** button.

4. You will see a message saying that you have successfully linked HubSpot. Click the **Save** button.
5. Test the connection.
