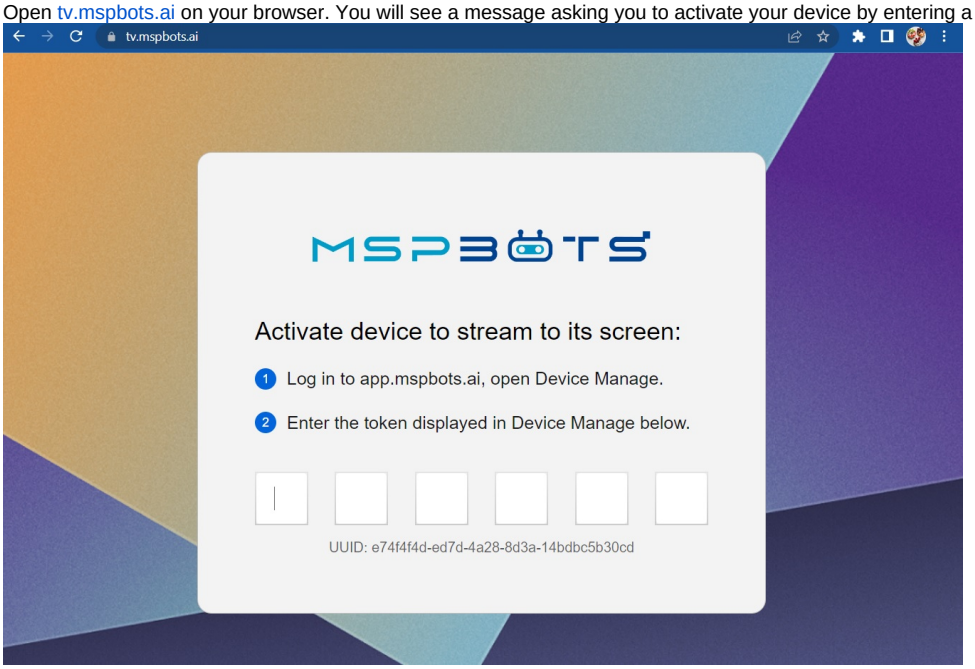
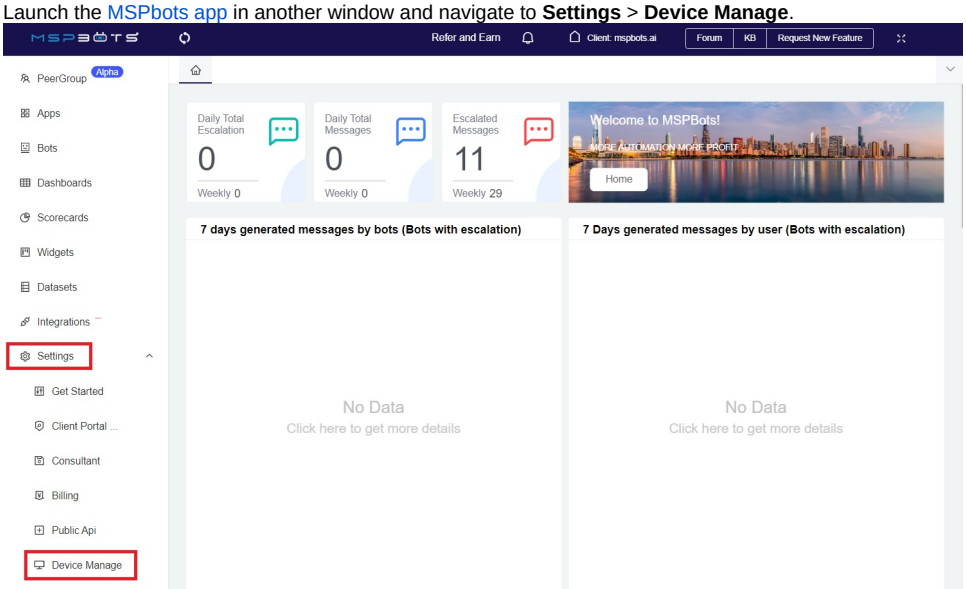
How can I add my screen to the device list?

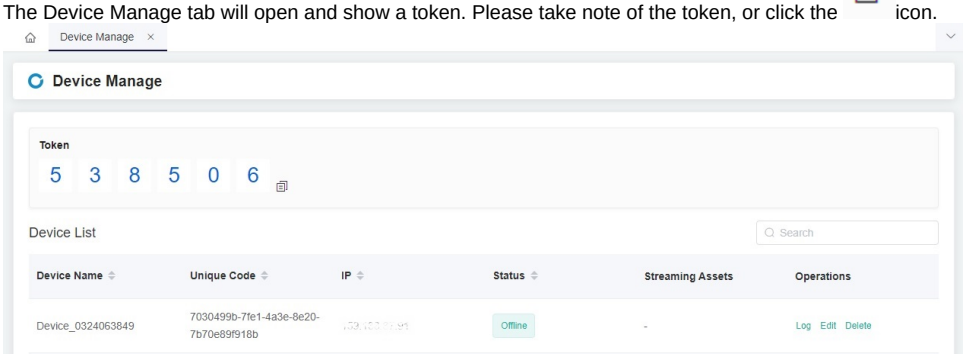
1. Open tv.mspbots.ai on your browser. You will see a message asking you to activate your device by entering a token. Leave this screen open.



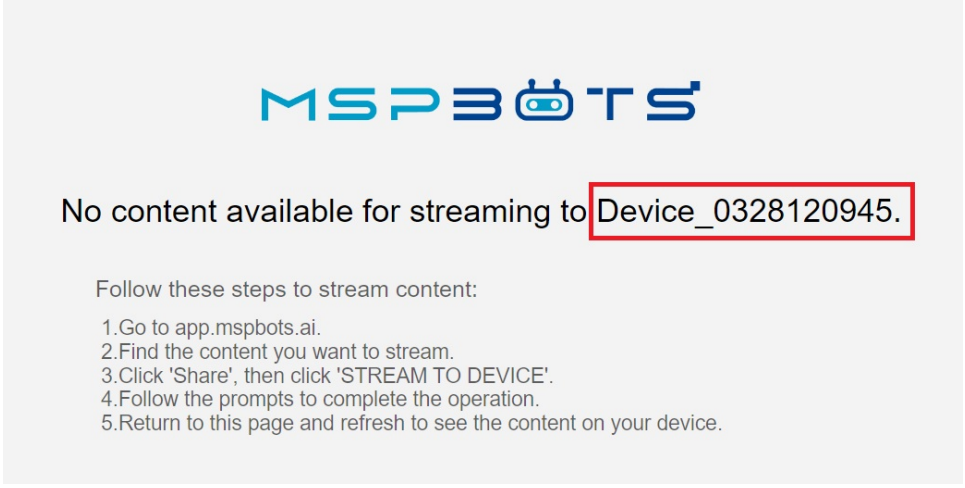
2. Launch the MSPbots app in another window and navigate to **Settings** > **Device Manage**.



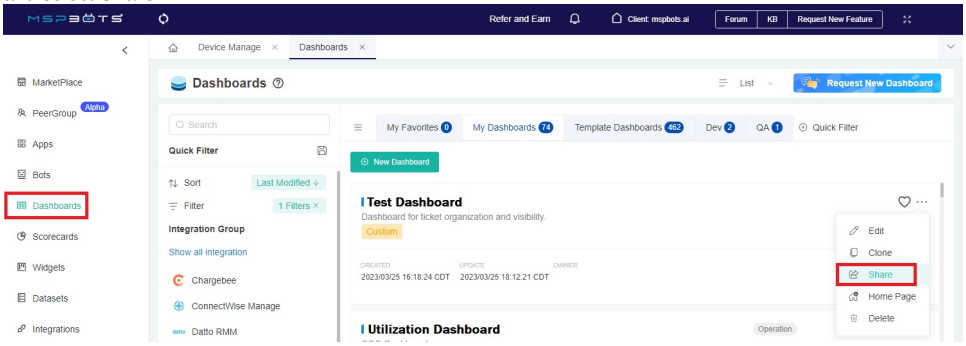
3. The Device Manage tab will open and show a token. Please take note of the token, or click the icon.



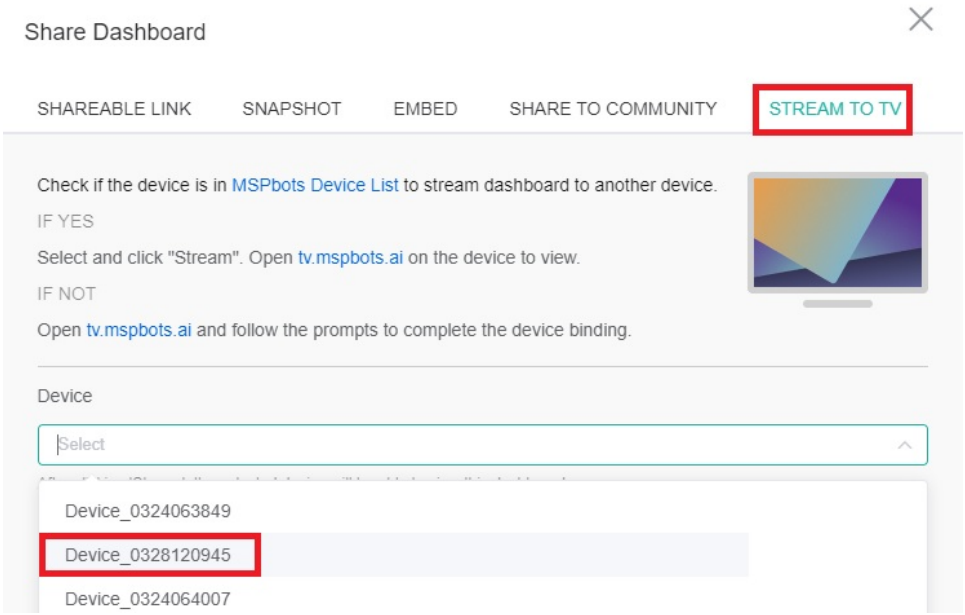
4. Go back to the tv.mspbots.ai window and enter the token. Once entered, take note of the device name on the screen.



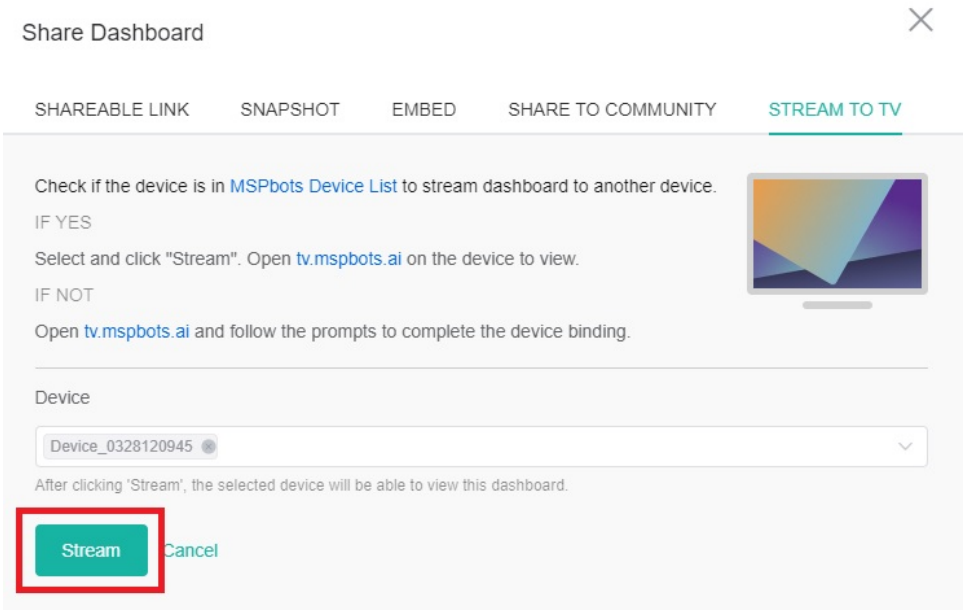
5. Next on the MSPbots app, navigate to **Dashboards**. Once the Dashboards tab is open, locate the dashboard for streaming, click the icon, and select **Share**.



6. When the Share Dashboard popup appears, click **STREAM TO TV**. Then go to **Device** and select the device name from Step 4.

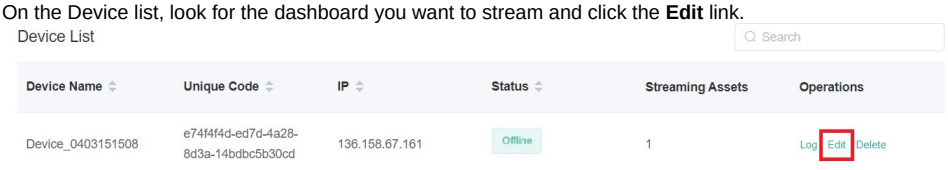


7. Click **Stream**.

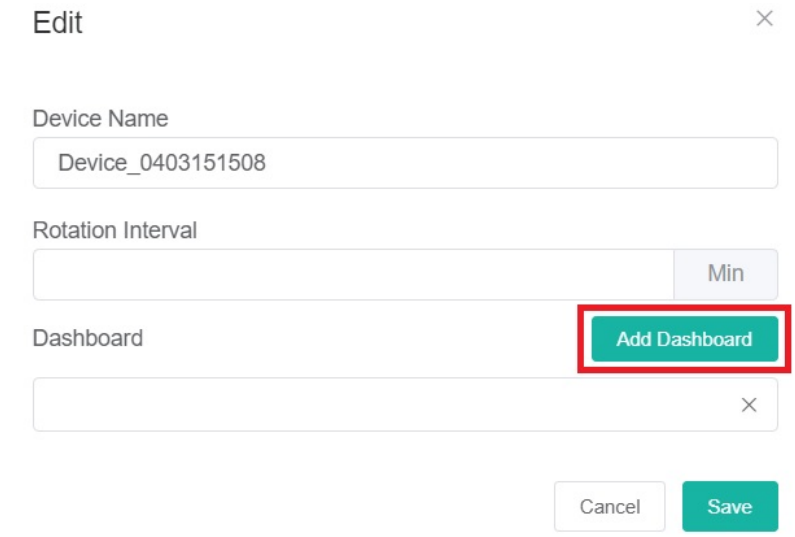


Alternatively, you can also go to add a dashboard through the Device Manage tab:

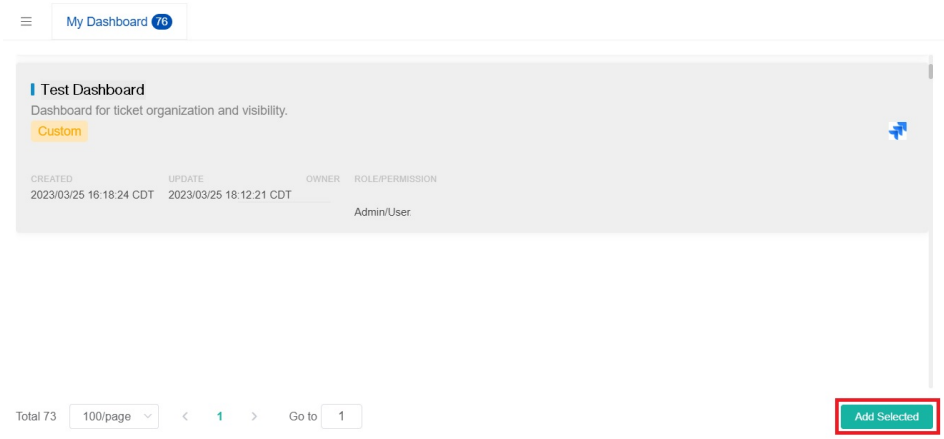
a. Go to the Device Manage tab by clicking **Settings** > **Device Manage**.
b. On the Device list, look for the dashboard you want to stream and click the **Edit** link.



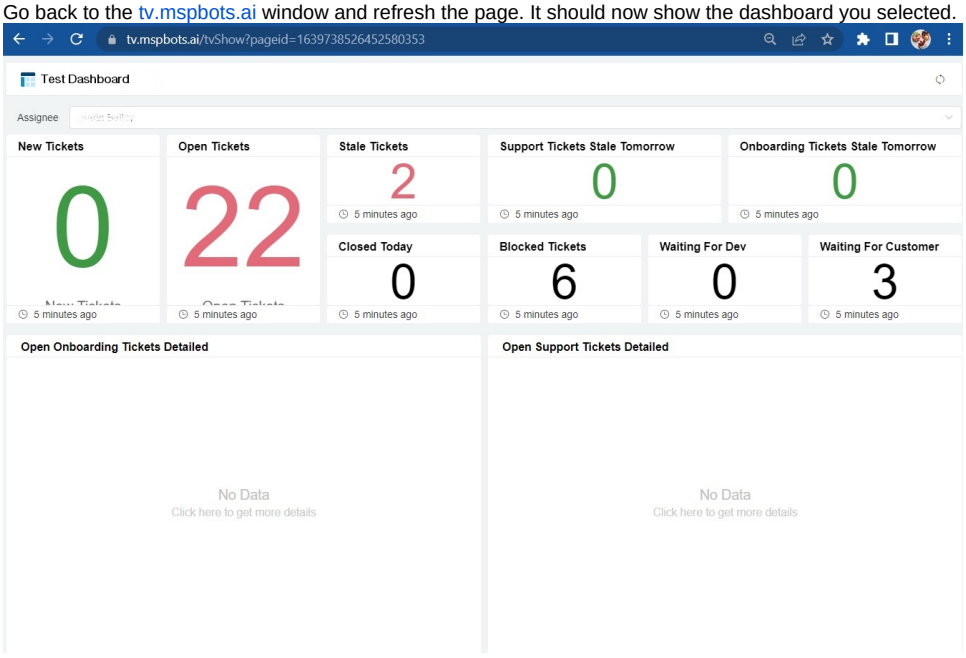
c. Click **Add Dashboard** on the Edit popup.



d. Select your dashboard, and click **Add Selected**. Then, click **Save** on the Edit popup.

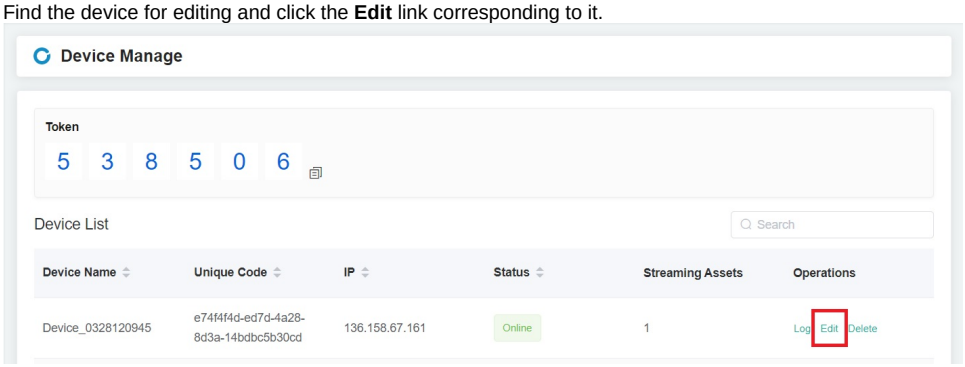


8. Go back to the tv.mspbots.ai window and refresh the page. It should now show the dashboard you selected.

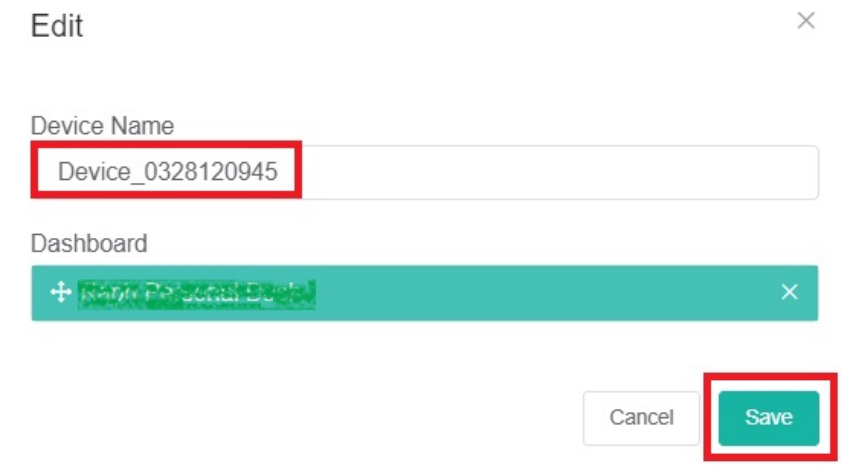


How to change my device on the device list

1. On the MSPbots app, navigate to **Settings** > **Device Manage**.
2. Find the device for editing and click the **Edit** link corresponding to it.

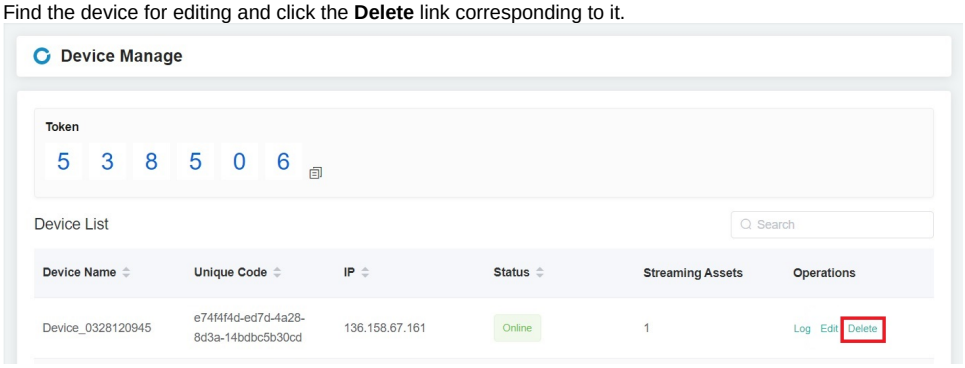


3. Change the device name and click **Save**.



How to remove the report from the screen

1. On the MSPbots app, navigate to **Settings** > **Device Manage**.
2. Find the device for editing and click the **Delete** link corresponding to it.



3. Click **OK** to confirm the deletion.
