

LogMeIn Integration Setup

Connect LogMeIn to MSPbots using the guide below.

To set up your MSPbots integration with LogMeIn:

1. Register for a LogMeIn account and log in.
2. Test your connection. To prevent errors, ensure that the LogMeIn account you are using has the correct credentials.
3. Next, go to the MSPbots app and navigate to [Integrations](#).
4. Find **LogMeIn** and click it to open.

The screenshot shows the LogMeIn integration setup interface. At the top, there's a header bar with a blue plus icon, the text 'LogMeIn' followed by a green 'Success' badge, and a green play button icon. Below this, it says 'Last success auth : 04/18/2023 02:03 EDT' and 'Type : Others'. The main form area has two input fields: '* UserName :' and '* Password :'. The password field is masked with asterisks and has a small icon to toggle visibility. At the bottom of the form is a green button labeled 'Save And Sync'.

5. Enter the **UserName** and **Password**, then click **Save And Sync**.
