

Sharing Dashboards Using the Stream to TV Function

The Stream to TV function of the MSPbots app allows you to share dashboards on screens. With this function, you can display your dashboard in areas where it will be most visible to your team. Real-time updates, priority tasks, and urgent issues are accessible and highlighted for timely action-taking.

What's on this page:

- [How to display a dashboard using Stream to TV](#)
- [How to add a dashboard to a device for streaming](#)
- [How to add an existing presentation to the Dashboard List](#)
- [How to add a new presentation to the Dashboard List](#)
- [Related Topics](#)

How to display a dashboard using Stream to TV

1. Navigate to **Dashboards** on the MSPbots app menu.

2. Search for the dashboard for streaming and click it to open.

3. When the selected dashboard opens, hover over the  icon on the upper right section of the page and select **Stream to TV**.

4. When the Share Dashboard window opens, go to the **Device** list and check if the device where you will stream is on the list.

The screenshot shows the 'Share Dashboard' window. The title is 'Share Dashboard'. Below the title, there's a section titled 'STREAM TO TV'. The text in this section reads: 'Check if the device is in [MSPbots Device List](#) to stream dashboard to another device. IF YES Select and click "Stream". Open tv.mspbots.ai on the device to view. IF NOT Open tv.mspbots.ai and follow the prompts to complete the device binding.' To the right of this text is a small image of a smartphone. Below the text, there's a 'Device' section with a dropdown menu labeled 'Select'. The dropdown menu is open, showing a list of device IDs: 'Device_0421210705', 'Device_0509033659', 'Device_0509033712', and 'Device_0509034051'.

If the device is on the list,

- a. Select the device and click **Stream**.

Share Dashboard ×

STREAM TO TV

Check if the device is in [MSPbots Device List](#) to stream dashboard to another device.

IF YES

Select and click "Stream". Open tv.mspbots.ai on the device to view.

IF NOT

Open tv.mspbots.ai and follow the prompts to complete the device binding.

Device

Device_0403151508 ▼

After clicking 'Stream', the selected device will be able to view this dashboard.

Stream Cancel

- b. Open tv.mspbots.ai on your device's browser to view the dashboard.

If the device is not on the list, add your device to the list first. Refer to the article [How to Add Your Screen to the MSPbots Device List](#).

How to add a dashboard to a device for streaming

1. Open the MSPbots app and go to **Settings > Device Manage**.

2. On the Device List, find the device where you want to add a new dashboard for streaming and click the corresponding **Edit** link.

The screenshot shows the 'Device Manage' interface. At the top, there's a navigation bar with links like 'Refer and Earn', 'Client: rspbots.ai', 'Forum', 'KB', 'Help Center', and 'Request New Feature'. Below this, the 'Device Manage' section is active. It displays a 'Token' field with the value '538506'. Below the token is a 'Device List' table with columns: Device Name, Unique Code, IP, Status, Streaming Assets, and Operations. The first device, 'Device_0403151508', is highlighted, and its 'Edit' link in the Operations column is circled in red. The table also shows two other devices, both with 'Offline' status. At the bottom right, there's a pagination control showing 'Total 12' and '10/page'.

Device Name	Unique Code	IP	Status	Streaming Assets	Operations
Device_0403151508	e74f4f4d-ed7d-4a28-8d3a-14bdbc5b30cd	136.158.79.55	Offline	4	Log Edit Delete
Device_0421210705	81088d63-5f13-4d4f-8a80-c2e6c87e7873	49.144.196.186	Offline	2	Log Edit Delete
Device_0509033659	304ccb28-95e0-494f-86f6-31c6c2f976f5	205.198.122.17	Offline	-	Log Edit Delete

3. When the Edit window opens, click the **Add Dashboard** button. This action will open the Add Dashboard window where you will find the Dashboard List.

The screenshot shows the 'Edit' window for a device. It has a title bar 'Edit' with a close button. Below the title bar, there's a 'Device Name' field containing 'Device_0403151508'. Below that is a 'Rotation Interval' field with a value of '5' and minus/plus buttons. At the bottom, there's a 'Dashboard' section with a dropdown menu showing 'Add Dashboard' (highlighted with a red box) and 'No Dashboard'. At the very bottom, there are 'Cancel' and 'Save' buttons.

Device Name: Device_0403151508

Rotation Interval: 5

Dashboard: **Add Dashboard** ▼

No Dashboard

Cancel Save

4. Select the dashboards for adding.

5. Click **Add Selected** to add the selected dashboards and take you back to the Edit window.

6. The Edit window should now show your additions. Click **Save** to keep the setup.

How to add an existing presentation to the Dashboard List

1. Open the MSPbots app and go to **Settings > Device Manage**.

2. On the Device Manage tab, click the **Edit** link corresponding to the device where you will add the presentation.

3. When the Edit window opens, hover your cursor over  and click **Add Dashboard List**.

The selected presentations should now appear on the dashboard list.

Other actions you can do on the Presentation Management window:

- Click to edit the name of your presentation details.
- Click to delete your presentation.
- Click to preview your presentation.
- Click to copy your presentation.

How to add a new presentation to the Dashboard List

Use the following steps when the presentation you want to add to the Dashboard List is not available in the list of presentations.

1. Open the MSPbots app and go to **Settings > Device Manage**.

2. Locate the device where you want to stream your presentation and click the corresponding **Edit** link.

3. In the Edit window, hover your cursor over  and click **Add Dashboard List**.
