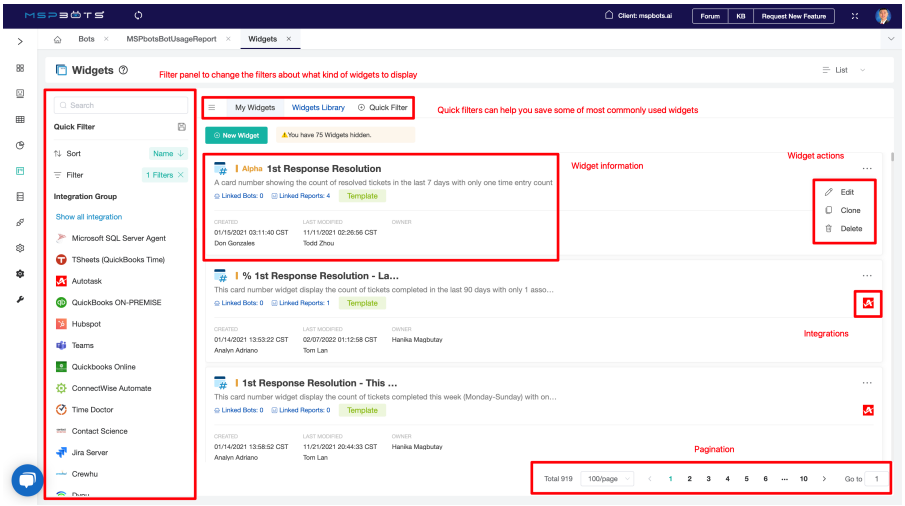
- 3. Creating new widgets

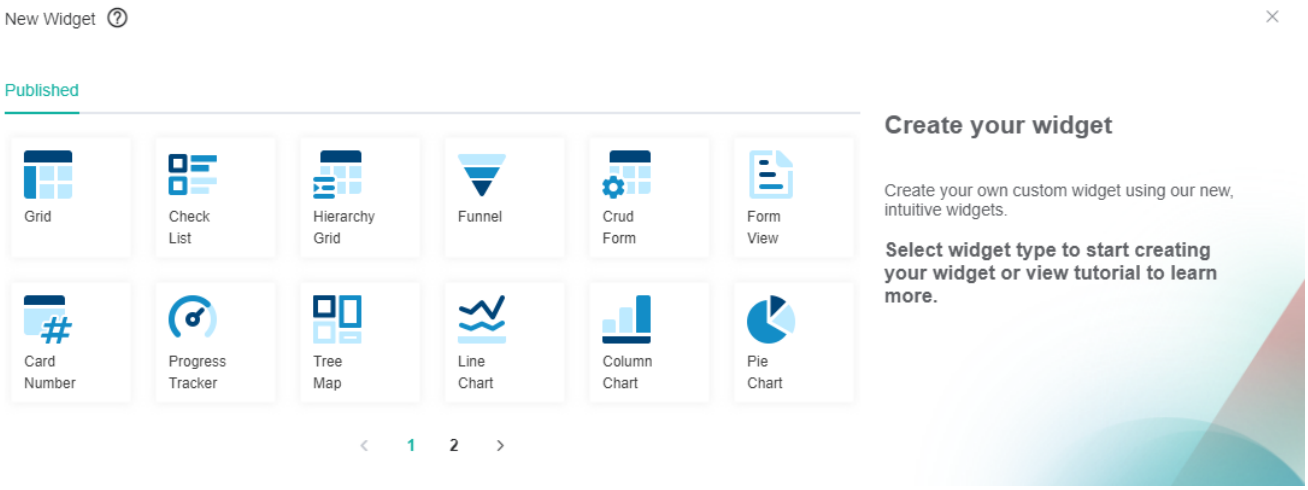


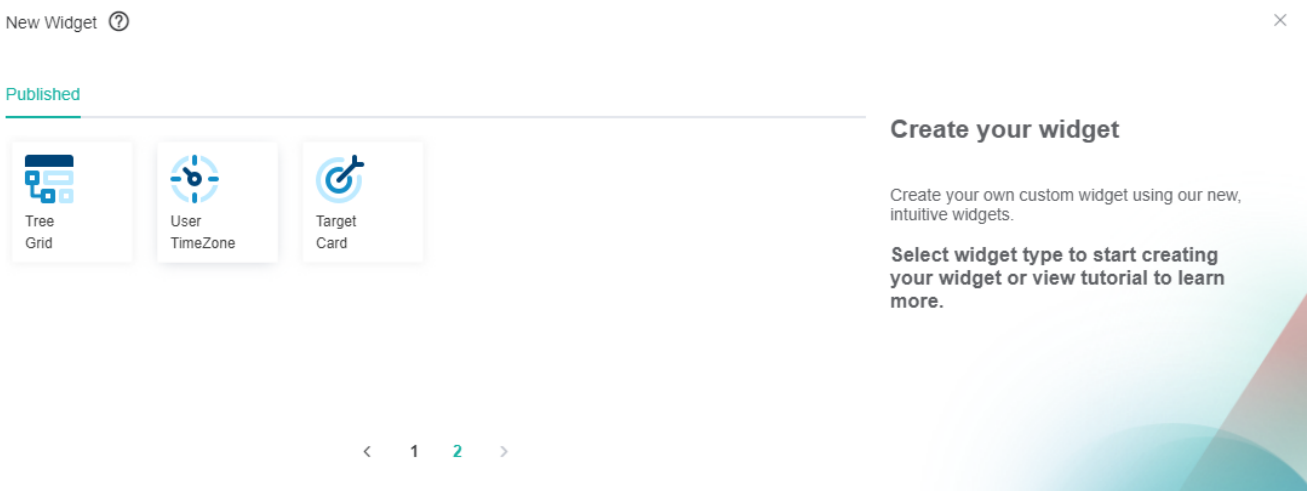
1. Widgets library

MSPbots has more than 1000 pre-built widgets for all integrations, more widgets are being developed every day.

2. Type of the Widgets

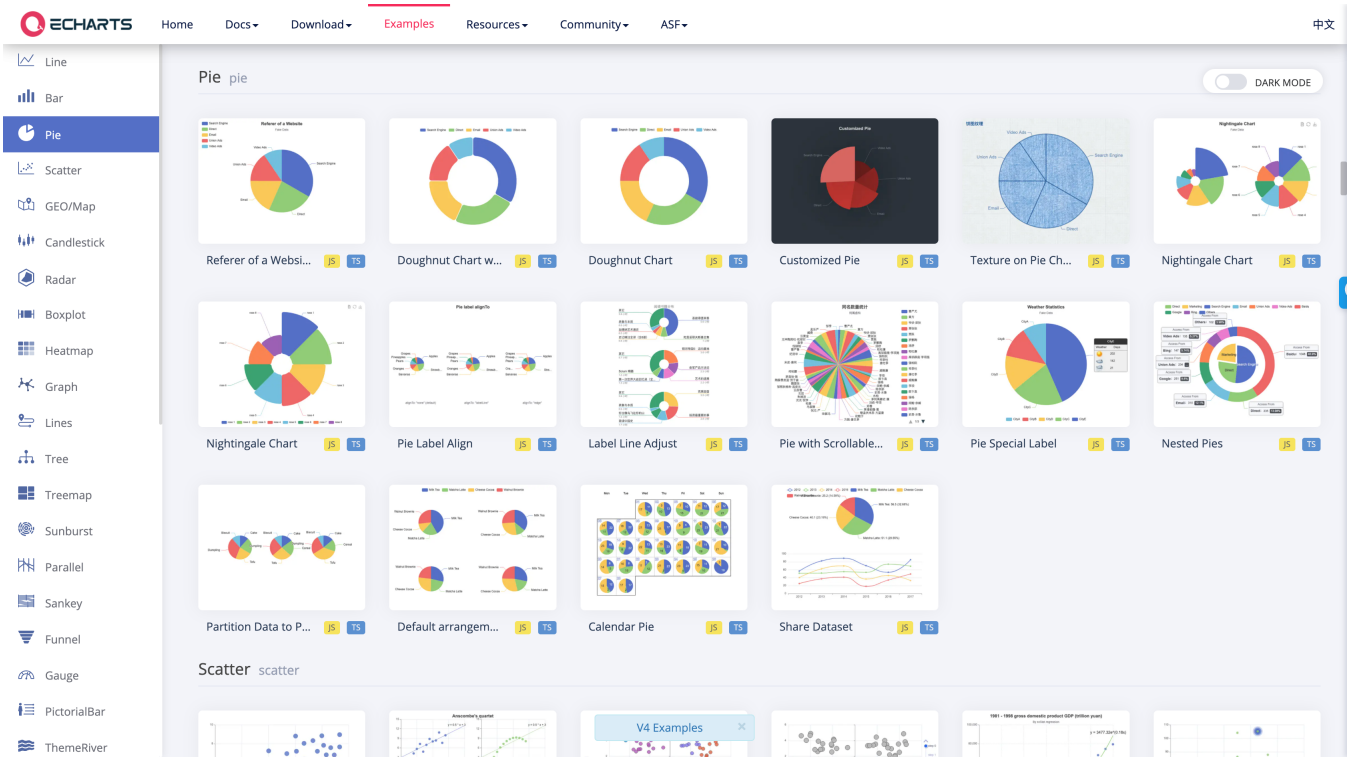
Here are the types of widgets that you can create right now.





2.1. eCharts Widget library Demo:

If current prebuilt widgets types are not enough, please visit our library **here**, and send an email to us about your use case, which one in the eChart that you want, we typically can release the new version in 2-3 days once it passes the use case validation.



3. Creating new widgets

How to Create a Grid Widget

Creating a Card Number Widget

What Filter Conditions and Formats are Available for Creating Widgets
