

Backup Radar Integration Setup

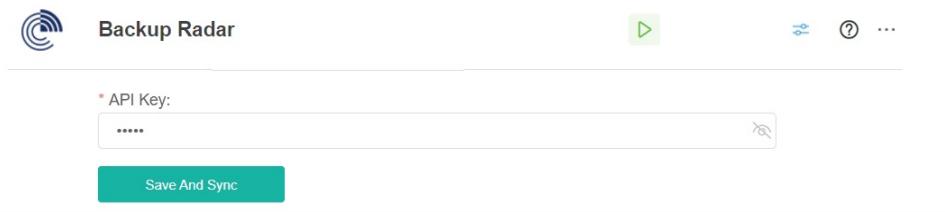

You need to provide an API key to connect Backup Radar to MSPbots.

To set up the MSPbots integration with Backup Radar:

1. Get the API key. Log in to the [Backup Radar](#) console.
2. Click on the menu then go to **Configuration > API**.
3. On the BackupRadar API screen, click **Add API key**. Copy the key. *Note: You only need one key for the integration.*

4. Log in to the MSPbots app and go to [Integrations](#).
5. Search for **Backup Radar** and click it.
6. Enter the API Key from step 3 above.

7. Click the **Save And Sync** button.
