Configuring NextTicket Priority Rules According to Requirements

Setting the priority rules for NextTicket is different for every MSP and depends on how a business wants to prioritize tickets. It is also not a one-shot procedure wherein the tickets fall into place in one go. Instead, you have to tweak the settings until you get the list that follows your required prioritization. This page shows an example of how to do this.

Important: This information applies to NextTicket for ConnectWise Manage only.

User case requirement: Configure NextTicket to give the highest priority to the following:

- Tickets assigned to users
- Unassigned tickets

Do the following procedure to set up the priority rules:

1. Navigate to Apps and click Next Ticket for ConnectWise Manage

3. Go to the user dropdown menu on the upper right side of the app's screen. Select a user for testing the new rule.

- NextTicket For ConnectWise Settings	윰 ⓒ Load D	Default All 💿 Test All 🖺 Save All
× Priority Point	Filter Test2	V User ^
Assigned to User If the ticket is assigned to the current user, indicate the points to be added		Daryl Öats Susan Baker Ismes Mever
If this ticket is v assigned to Currentv , add 1000 points.		Hugh Burnell
Select a company status and add indicate the points to be added		Jack Sparrow
If ticket company status = Credit Hold +1 , add 10000 points.		Tony Sparks Tom Chen
Company Type Select a company type and indicate the points to be added when it is matched.		P @ B
If ticket company type = v , the add 1000 points.		⊕ ⊝

4. Go to the Priority Point rule Assigned to User. Use the following values for this rule: If this ticket Is assigned to Current User, add 20000 points. If this ticket Is assigned to No One add 20000 points.

← NextTicket For ConnectWise Settings	2	🖟 🖉 Load Default All 💿 Test All 🖺 Save All
X Priority Point rules	Filter Test2	 ✓ User ✓
Assigned to User If the ticket is assigned to the current user, indicate the points to be added		<u>م</u>
If this ticket Is \lor assigned to Current \lor , add 20000 points.		⊙
If this ticket Is \lor assigned to No One \lor , add 20000(points.		⊕ ⊖

- 5. Click the eye icon on the right side. This will save the modification and test how the change will affect prioritization.
- 6. Review the updated list of priority tickets that come up on the Test Passed Data window. It should now show tickets that follow new the rule you have set. For this page's example, it will look like the list below:

Excel E	port 🖪 PDF Export	CSV Expo	rt						
Ticket ID T	Ticket Name T	Pts T	Company Name	٣	Resource	User Assigne	d T	User Assigned Pts T	
418366	Scheduling Teams Meetings in Outlook	20000	NYCOM Inc.					20000	
<u>418341</u>	FW: Your DigiCert certificate expires in 60 days (Order # 138546366)	20000	Creative Technology Group					20000	
418320	Jailyn Maddox computer	20000	Richmond SPCA					20000	
417073	Alert for Putnam Morrisville NC - appliances went down	20000	Meraki, Inc				20000		
416168	Gravity	20000	Chesdin Animal Hospital					20000	
409843	RE: Error Message when trying to connect NAV	20000	OXCO Inc					20000

418351	Need help with Outlook	0	Creative Technology Group		dlewis	dlewis		0	
418345	Cannot Access Portal	0	Creative Technology Group		anagle	anagle		0	
418343	Please review	0	Leafspring Ballantyne		bkeel	bkeel		0	
	microsoft teams - Martha								

The new rule that you have applied may be affected by the other existing priority rules. To test how other rules affect your new rule:

- 1. Select the user for whom you are testing the rule.
- 2. Click Test All on the upper right-hand corner of the screen. This will apply all the rules in the configuration.

NextTicket For ConnectWise Settings	e، Load Default All	Test All Save All
× Priority Point rules	Filter Test2	Bejamin Keel 💎
Assigned to User If the ticket is assigned to the current user, indicate the points to be added		P ~ B
If this ticket Is \checkmark assigned to Current \checkmark , add 20000 points.		⊕ ⊝
If this ticket Is \lor assigned to No One \lor , add 2000() points.		⊕ ⊝

3. Check the new list on the **Test Passed Data** window. It should apply the new rule that you have just set. If there are tickets that seem to be misplaced or are not prioritized correctly, scroll to the right and check which existing rule could possibly be overwriting your new rule.

For this page's example, the first two entries on the list are prioritized more than the third entry.

Once you have identified the overwriting rule, go to its corresponding section in the **Priority Point rules** to view and adjust accordingly.
 Click **Test All** again to check. Do steps 1 to 4 until the priority list shows your desired prioritization.
