

How to Create a Shared Public Dashboard

A shared public dashboard is very useful if you want to embed a report into a public website. Users do not have to log in to view the public dashboard.

To create a share public dashboard, watch the video tutorial or follow the procedure below.

Do the following procedure:

1. Go to the MSPbots [Dashboards](#).

2. Click the ellipsis ... button on the right side of the reports and click **Share**.

3. On the Share Dashboard window, go to **Shareable Link**.
4. Click on **Additional Settings** and select **No Time Limit**.

5. Click **Copy** then **Save**.

Important: You need to click **Save** before you can use and share the link.
